PROFILE & STATEMENT

b. in Venice, Italy, 1975
from 2008 to 2014 in Berlin
Currently based in Italy.

"My artistic and curatorial research investigates the themes of productive failure such as irony, anxiety, the sense of ridicule, nausea, individualism, non-democratic confrontation, obsession, patriarchy, power, free will, the defeat of memory, the re-dimension of the ego, the absurd and the paradox through the artist's practice as a useless but necessary action."
